

### ABSTRACT

20250715 10:07:43  
A ready to drink coffee beverage comprising a coffee portion, said coffee portion  
comprising a principal coffee component and N relevant coffee components, where N is  
5 a number in the range of from about 1 to about 20, wherein the principal coffee  
component corresponds to a principal coffee component of a second coffee and the  
relevant coffee components correspond to relevant coffee components of the second  
coffee, and wherein the total concentration of the principal coffee component is in the  
range of from about 50% below to about 50% above the total concentration of the  
10 corresponding principal coffee component in the second coffee, and wherein the value of  
the total concentration of the principal coffee component divided by the total  
concentration of each of the relevant coffee components is within the range of from about  
50% below to about 50% above the value of the total concentration of the corresponding  
principal coffee component in the second coffee divided by the total concentration of the  
15 corresponding relevant coffee components in the second coffee.
